Education

Tuskegee University, Alabama **August 2023 – Present**

- Bachelor of Science, Computer Science
- Expected Graduation: May 2027 | GPA 3.5
- Pre-Freshman in Computer Science (Pre-Fics) Summer 2023
- Related Course Work: Programming I and II, Data Structures and Algorithms in Java, R, Machine Learning

Experience

Undergraduate Research Assistant
Tuskegee University, Alabama January **2024 – Present**

- Achieved 2.4 - 4% Mean Average Percentage Error (MAPE) on classical LSTM baseline for energy prediction
- Analyzed patterns in a household in 16 States of the Pennsylvania-New Jersey-Maryland (PJM) Interconnection Grid
- Benchmarked models on AEP hourly energy dataset with 10,000+ data points
- Processed and visualized large-scale energy datasets using NumPy and Pandas

Research Scholar (IBM-HBCU Quantum Center)
Tuskegee University, Alabama (Remote) **August 2024 – Present**

- Developed quantum LSTM models using PennyLane framework, achieving 4-8% MAPE on time-series prediction tasks
- Presented research at national Quantum Engineering conference to 20+ scholars, researchers, and industry experts
- Benchmarked Quantum LSTM against classical LSTM baselines using PyTorch on 10,000+ data points

Office Assistant – Office of the Provost
Tuskegee University, Alabama **August 2025 - Present**

- Assisted 50+ students, faculty, and external visitors weekly via phone and in person
- Managed the office of the provost YouTube channel reaching 2,000+ students

Extracurricular

Tuskegee University, Alabama **August 2023 – Present**

- Association of Computing Machinery (Member) (Aug 2023 – Present)
- National Society of Black Engineers (NSBE Chapter Member) (Aug 2023 – Present)
- Tuskegee University Robotics club (Aug 2025 - Present)
- TU Soccer Team (Aug 2024 – Present)
- L.E.A.P (Learning, Excelling, Adjusting, and Preparing) Counselor (June 2025 – July 2025)
  - Facilitated workshops on IBM Skills, resumes, and professional development
  - Collaborated with staff and faculty to coordinate events with 75% attendance

Achievements/Scholarships

- Merit Scholarship (Tuskegee)
  - Awarded 2023 based on academic merit, allowing for further educational and research projects
- National Science Foundation S-Stem scholarship and scholar,
  - Awarded Scholarship by the National Science Foundation (2024) that recognizes academic excellence and supports research in science and technology
- IBM Basics of Quantum Information Badge (Dec 2024 – Present)

Skills

Technical Skills:

- C++ (object-oriented programming)
- Python (PennyLane and PyTorch, NumPy, Pandas)
- Java (Data Structures and Algorithms Development)
- R (statistical computing and data analysis)

Soft Skills:

- Leadership
- Problem-Solving
- Collaboration
